

Greenprint Forum 30th Anniversary Workshop

18:00-21:00, Wednesday 22 April 2026,

East Suffolk House, Riduna Park, Melton IP12 1RT

Since our formation in 1996, those who make up our network have worked hard to engage, inspire and drive positive community environmental action in eastern Suffolk. We want to note the actions and the events over those 3 decades, the progress that has been made, and most of all look forward to the future.

This event is being held largely in workshop mode to explore and capture members' priorities and aspirations for future action, whether you have been with us from the early days, or joined us along the way or even more recently.

In particular we plan to discuss the challenges of the future, including the 2030 target of a net zero carbon Suffolk and the imminent reorganisation of local government, as well as taking a longer, multigenerational view of how we see a sustainable Suffolk in 50 years time and how that vision can be brought to life.

So join us in inspiring further action – an opportunity to share your actions, ideas and experiences and help us agree on the priority issues that remain to be tackled.

Registration essential due to limited number of spaces
